Network Provider - Davis Vision

Network Choice- Freedom of choice in selecting a vision provider is a core value to us. We offer out-of-network options to all members. The member is responsible for the difference between the out-of-network provider's charge and the negotiated schedule of a network provider. If a Davis network provider is not available within 30 miles of a member's home or there is no provider that adequately meets the particular health care needs of a member, we allow access to a non-participating provider. In this case, there is no additional cost beyond what the member would normally pay for the same in-network service. To learn more about your network choices, contact us at www.davisvision.com.
